

WILSON'S SCHOOL COOKIE STATEMENT

Cookies are small text files that are placed on your computer by websites that you visit. They are widely used in order to make websites work, or work more efficiently, as well as to provide information to the owners of the site.

Necessary cookies enable core functionality such as security, network management, and accessibility. You may disable these by changing your browser settings, but this may affect how the website functions. Most browsers allow you to reject all cookies, whilst some browsers allow you to reject just third party cookies. For example, in Internet Explorer you can refuse all cookies by clicking Tools, Internet Options, Privacy, and selecting Block all cookies using the sliding selector. Blocking all cookies will, however, have a negative impact upon the usability of many websites, including this one.

Analytics cookies help us improve our website by collecting and reporting information on how you use it. We'd like to set Google Analytics cookies to do this. The cookies collect information in a way that does not directly identify anyone; they collect **anonymous** information about how visitors use websites, for instance which pages are most visited, whether they have visited the site before and how long they remain on each page.

To find out more about cookies and how you can control them, visit www.aboutcookies.org.

Links to other websites

Our website may occasionally offer links to other websites of interest. However, once you have used these links to leave our site, you should note that we do not have any control over that other website. Therefore, we cannot be responsible for the protection and privacy of any information which you provide whilst visiting such sites and such sites are not governed by this statement. You should exercise caution and look at the privacy statement applicable to the website in question.
